

Name _____

Nerve Cells Coloring

Oligodendrocytes (purple) Ependymal Cells (orange) Myelin sheaths (pink) Microglial cells (yellow) Astrocyte (green) Body of Neuron (blue) Capillary (red) Nodes or Ranvier and the Axon (brown)

What is the function of:

1) Oligodendrocytes _____

2) Astrocytes _____

3) Microglial cells _____

4) Myelin sheaths _____

5) Trace the path of a nerve impulse in a neuron: _____
